DESCRIPTION

Cable lubricant GEL significantly reduces friction, thereby making it easier to pull cables and wires into electrical installation conduits and protecting against cable damage. Application: Apply RUNPOTEC cable lubricant GEL to the cable or inside the conduit. Also highly effective when inserting cables into cable insertion systems.

Product features: Non-flammable, reduces friction, temperature-resistant up to 85°C, improved lubricating effect, silicone-free, water-soluble, non-corrosive, does not stick, skin-friendly, biodegradable. Dissolves without leaving any residue.

Caution: Close after use, store in a cool, dry place. Must not come into contact with live parts. Risk of short circuit! EUH208: Contains 2-methyl-2H-isothiazol-3-one. May cause an allergic reaction. May cause staining on sensitive surfaces.

Scope of supply: Cable lubricant GEL 250 g
