DESCRIPTION

3-piece connector thread set – spare parts set comprising 1 x RTG female connector thread Ø 6 mm, 1 x RTG male connector thread Ø 6 mm and 1 x RTG blind screw Ø 6 mm. Suitable for RUNPOSTICKS, GF3, all RUNPOTEC fibreglass rods, and the RC2 and RC3 inspection cameras. When used with glass fibre rods, the RUNPOSTICKS can be connected as a flexible guide probe to guide heads such as a roller, a guide bulb (Ø 20 mm or Ø 30 mm) or a shackle. With the RC2 and RC3 inspection cameras, the connecting thread allows the system slider to be connected to various guide heads such as a roller, a guide bulb (Ø 20 mm or Ø 30 mm) or a shackle.
Ideal applications: suspended ceilings, cable ducts, cavity walls, retrofitting of non-guided cables, underfloor ducts and various penetrations.
