DATA

ITEM NO.	**20388**
WEIGHT	0,014 kg
DIMENSION	L 129 mm x B 15 mm x DM 7 mm
THREAD	RTG Ø 6 mm
TOTAL BREAKING LOAD	200 kg
EAN-CODE	9120045474343

ADVANTAGES

- For connecting cable pulling grips
- Can also be used as an adapter for the cable pulling loops with thread

DESCRIPTION

The patented quick-release fastener with integrated swivel compensation compensates for cable rotation in the pipe, thereby protecting the insertion system, the pulling sleeve and the cable. Thanks to the ergonomically shaped hook, the quick-release fastener allows attachment and retraction in a matter of seconds, eliminating the need for time-consuming screwing and unscrewing. The total breaking load of 200 kg has been tested on the hook and the connections. Made of high-quality stainless steel, the quick release fastener is rustproof and particularly durable.

Optimal application: ideal for connecting RUNPOTEC cable pulling sleeves with RTG Ø 6 mm thread to all RG guide tips (RUNPOGLEITER). It can also be used as an adapter for the cable pulling loop with thread.

Scope of supply: 1 x Adapter with quick-release fastener with thread RTG Ø 6 mm

INFORMATION

Compatible with:

RP5 Cable pulling system
with/without meter counter
20 - 30 m - Item no.: 10202 - 10203
