DATA

ITEM NO.	**20238**
DIAMETER	7 mm
WEIGHT	0,004 kg
DIMENSION MM	L 55 x B 13 x H 7 mm
THREAD	RTG Ø 6 mm
BREAKING LOAD	270 kg
EAN-CODE	9120045473209

ADVANTAGES

- Incl. twist adjustment
- Patented RG 7 guiding head
- Highest demolition safety
- No need to change the head
- More cable capacity (7 x 2.5 mm²)

DESCRIPTION

The RG7 RUNPOGLEITER (guide tip) with eyelet, swivel compensation and RTG thread Ø 6 mm impresses with its high flexibility and a breaking load of 270 kg. Thanks to the patented finder, it offers extremely good bending and sliding properties. The extra-large eyelet hole allows the cable to accommodate up to 7 x 2.5 mm² cables. The integrated swivel compensation ensures that the cable can rotate in the pipe, which protects both the cable and the insertion system. The connection between the spiral strand and the RG7 guide tips is equipped with numerous stable safety reinforcements that guarantee maximum tear-off resistance (Ø 6 mm > 170 kg / Ø 7 mm > 270 kg). The universal special eyelet head not only allows optimal insertion of pull-in tapes, but also serves to securely pull in the cables. This means that the head does not need to be changed, saving valuable time. Suitable for GF3, RUNPOSTICKS, and GF4.5 and GF6 fiber optic rods.

Application video: a short, very informative application video can be viewed by scanning the QR code or on www.RUNPOTEC.com.

Scope of supply: 1 x RG 7 RUNPOGLIDER (guiding head) with swivel Ø 7 mm with thread RTG Ø 6 mm
