DESCRIPTION

The RP5 Replacement fish tape is a triple-twisted special plastic tape with a diameter of 5.5 mm has an even better shearing effect than the 3 mm fiber-glass rod; the frictional resistance is only half the normal value due to spot contact. The patented RG7 Guiding head with swivel Ø 5.5 mm (pressed at the beginning and end of the tape) allows overcoming tight radii (bending radius 15 mm).The incredible total breaking load of 270 kg refers to the entire pulling system. Labour- and time-consuming repair work is no longer necessary, as this cable pulling system is virtually breakage-free. The RP5 can be stored in a very practical box in lengths of 20 m and 30 m. The RP5 replacement strap 40 m cannot be stored in the box.
Optimal field of application: for pipe inner diameter 9 - 32 mm
