DATA

ITEM NO.	**20559**
WEIGHT	1,62 kg
DIMENSION	L 220 mm x B 284 mm x H 33 mm
CAMERA HEAD	307.200 Pixel (640 x 480)
LIGHTNING	6 x LED (integrated in the camera head)
PROTECTION CLASS	IP 67
ANGLE OF VIEW	64 °
FOCUS DISTANCE	30 mm - 80 mm
EAN-CODE	9120045476156

ADVANTAGES

- Pipe inspection from Ø 14 mm (inside)
- Protection class IP67
- Wall mount
- Mounting bracket + magnetic holder for monitor
- Vertical monitor adjustment
- Practical viewing angle 60°, hands free for working
- Cable unwinding option with cable roller XB 300, XB 500 or XB 500 T

DESCRIPTION

RC2 camera head with cable, including a 50 m camera reel, 640 x 480 pixel resolution and IP67 protection rating. The camera head, featuring 6 integrated LEDs, is housed in a robust stainless steel head (Ø 13 mm) with a RUNPOTEC RTG thread (Ø 6 mm) and is compatible with all RUNPOTEC products featuring an RTG thread (Ø 6 mm) (GF3, RUNPOSTICKS, RP1, GF4.5 – GF15 fibre optic rods). Thanks to the mounting bracket and magnetic holder, the monitor can be easily attached to the wall and positioned vertically. This leaves both hands free for working. The practical 60° viewing angle ensures a comfortable view of the monitor. Cable reel option in combination with the XB 300, XB 500 and XB 500 T cable reels.
Ideal area of application: Pipe inspections over long distances of up to 50 m. From an internal diameter of 14 mm (corresponding to a conduit diameter of 20 mm), but also suitable for larger pipe cross-sections (ventilation systems, drainage systems, sewage pipes, etc.). In combination with the RUNPOSTICKS, it is ideal for inspecting cavity walls, suspended ceilings (over high ceiling profiles), shafts and underfloor ducts, as well as for maintenance and system inspections.

Scope of supply: 1 x Camera probe RC2 with cable 50 m, incl. camera reel
