DATA

ITEM NO.	**20606**
WEIGHT	0,046 kg
DIMENSION	L 130 mm x B 58 mm x H 53 mm
MATERIAL	Special plastic
THREAD	Front thread RTG Ø 6 mm
EAN-CODE	9120045476088

DESCRIPTION

The RUNPOTEC systemglider was primarily designed to transport the RC2 or RC3 inspection camera without obstacles. The RUNPOTEC LED rechargeable high performance 320 lumen lamp can also be clipped onto the system slide. The system slide is optimally used in combination with RUNPOTEC fiberglass rods. Long distances in larger pipe cross sections such as ventilation pipes, drainage pipes or sewage pipes can be inspected here. The additional RTG Ø 6 mm front thread allows for various catch hooks, magnets or other RUN-POTEC accessories to be screwed on, thus opening up a wide range of other applications.
The SYSTEMGLEITER protects the RC2 or RC3 inspection camera and the LED lamp from possible impact damage, centres and raises the camera head for better adjustment and thus optimizes the image and viewing angle. It is also compatible with all RUNPOTEC products equipped with an RTG Ø 6 mm thread

Scope of supply: 1 x Systemglider with front RTG Ø 6 mm thread

ADVANTAGES

- Protects RC2 or RC3 inspection camera and LED lamp from possible impact edges
- Centres or raises camera head RC2 or RC3
- Better picture or viewing angle
- Many adaptation options thanks to front RTG Ø 6 mm thread
- Compatible with all RUNPOTEC products with RTG Ø 6 mm thread
